*Welcome to our office!!!
It is well known that
families who maintain
strong healthy, well-
aligned spines have
improved health. People
whose spines are not
kept in proper alignment
are much more likely to
develop health disorders

X-RAY CONSENT FORM

The doctor will explain that the purpose of the x-ray about to be taken is to analyze the spine for vertebral subluxations and to determine the appropriateness of chiropractic spinal adjustments. If the doctor discovers a non-chiropractic “unusual finding” when reviewing x-ray, I will be informed. I then must determine if I should seek the services of an additional health care provider for advice, diagnosis, or treatment for the unusual finding. I understand that seeking advice from another type of health care provider should not interfere with the subluxation corrective care provided by this office.

I fully understand the above and consent to chiropractic spinal x-rays from Lampe Chiropractic.

NOTICE OF PRIVACY PRACTICES

Steve Lampe, D.C.

THIS NOTICE DESCRIBES HOW HEALTH INFORMATION ABOUT YOU MAY BE USED AND
DISCLOSED
AND HOW YOU CAN GET ACCESS TO THIS INFORMATION

PLEASE REVIEW IT CAREFULLY AND SIGN.
THE PRIVACY OF YOUR HEALTH INFORMATION IS IMPORTANT TO US.

This Notice of Privacy Practices describes how we may use and disclose your protected health information to carry out treatment, payment or health care operations and for other purposes that are permitted by law.

We are required to abide by the terms of this Notice of Privacy Practices. We may change the terms of our notice, at any time. The new notice will be effective for all protected health information that we maintain at that time.

Uses And Disclosures Of Protected Health Information Based Upon Your Written Consent

You will be asked by your chiropractor to sign this consent/acknowledgment form. By signing the consent/acknowledgment form, your chiropractor, our office staff and others outside of our office that are involved in your care and treatment for the purpose of providing health care services to you may also use and disclose your protected health information to pay your health care bills and to support the operation of the chiropractor's office.

Following are examples of the types of uses and disclosures of your protected health care information that the chiropractor's office is permitted to make once you have signed this consent/acknowledgment form:

Treatment: We will use and disclose your protected health information to provide, coordinate, or manage your chiropractic care and any related services. This includes the coordination or management of your chiropractic care with a third party that has already obtained your permission to have access to your protected health information.

Payment: Your protected chiropractic information will be used, as needed, for your chiropractic services. This may include certain activities that your chiropractic insurance plan may undertake before it approves or pays for the chiropractic services we recommend for you such as: making a determination of eligibility or coverage for insurance benefits, reviewing services provided to you for medical necessity, and undertaking utilization review activities.

Healthcare Operations: We may use or disclose, as needed, your protected health information in order to support the business activities of your chiropractor's practice. These activities include, but are not limited to, quality assessment activities, employee review activities, training of chiropractic students, substitute chiropractors, doctors who observe our practice, licensing, marketing, fundraising activities, and conducting or arranging for other business activities.

In addition we may use a sign-in sheet at the registration desk where you will be asked to sign your name. We may also call you by name in the waiting or adjusting room. We may use your health information to call you to remind you of, cancel or re-schedule an appointment. We may leave a message on your answering machine or voice mail. To promote a less stressful, family friendly and time efficient environment, most office visits are performed in an open setting with other patients where complete privacy of your name and health information will be respected but cannot be guaranteed. Special appointment times are available by request for discussion of private or confidential matters. We may mail appointment reminders, announcement or greeting cards to your home. Your private information will be used if we bill insurance claims for you or need to collect an outstanding balance using an outside collection agency. In addition we may occasionally video tape our front desk or open adjustment area for training purposes.

We may share your protected health information with third party "business associates" that perform various activities (e.g., billing transcription services) for the practice. Whenever an arrangement between our office and a business associate involves the use or disclosure of your protected health information, we will have a written contract that contains terms that will protect the privacy of your protected health information.

We may use or disclose your protected health information, as necessary, to provide you with information about treatment alternatives or other health-related benefits and services that may be of interest to you. We may also use and disclose your protected health information for other marketing activities. For example, your name and address may be used to send you a newsletter about our practice and the services we offer. We may also send you information about products or services that we believe may be beneficial to you. You may contact our Privacy Contact to request that these materials not be sent to you.

Other uses and disclosures of your protected health information will be made only with your written authorization, unless otherwise permitted or required by law as described below. We may use and disclose your protected health care information in the following instances. You have the opportunity to agree or object to the use or disclosure of all or part of your protected health information. If you are not present or able to agree or object to the use or disclosure of the protected health information, then your chiropractor may, using professional judgment, determine whether the disclosure is in your best interest. In this case, only the protected health information that is relevant to your health care will be disclosed.

INFORMED CONSENT TO CHIROPRACTIC TREATMENT

Doctors of chiropractic who use manual therapy techniques such as spinal adjustments are required to advise patients that there are or may be some risks associated with such treatment. In particular you should note:

- a). While rare, some patients may experience short term aggravation of symptoms, rib fractures or muscle and ligament sprains or strains as a result of manual therapy techniques.
- b). There have been reported cases of stroke associated with many common neck movements including adjustment of the upper cervical spine. Present medical and scientific evidence does not establish a definite cause and effect relationship between upper cervical spine adjustment and the occurrence of stroke. Furthermore, the apparent association is noted very infrequently. However, you are being warned of this possible association because stroke sometimes causes serious neurological impairment, and may on rare occasion result in injuries including paralysis. The possibility of such injuries resulting from cervical spinal adjustments is extremely remote.
- c). There are rare reported cases of disc injuries following cervical and lumbar spinal adjustment although no scientific study has ever demonstrated such injuries are caused, or may be caused, by spinal adjustments or chiropractic treatment.

Chiropractic treatment, including spinal adjustment, has been the subject of government reports and multi-disciplinary studies conducted over many years and has been demonstrated to be a highly effective treatment for spinal pain, headaches and other similar symptoms. Chiropractic care contributes to your overall well-being. The risk of injuries or complications from chiropractic treatment is substantially lower than that associated with many medical or other treatments, medications, and procedures given for the same symptoms.

I acknowledge I have discussed, or will have the opportunity to discuss, with my chiropractor the nature and purpose of chiropractic treatment in general and my treatment in particular (including spinal adjustment) as well as the contents of this Consent.

I consent to the chiropractic treatments offered or recommended to me by my chiropractor, including spinal adjustment. I intend this consent to apply to all my present and future chiropractic care.
